

## All-In-One Solution

This solution is the first complete system for ELV depollution and dismantling which now can be performed on a new special TiltLift by one person independently.

- Drainage and dismantling time under 3 hours \*
- Parts removal and drainage on one and the same TiltLift
- No transfer to another lift necessary
- High ergonomics through optimum working heights and ideally positioned tools
- Same space, but more features
- Increased reliability by reducing forklift traffic

\*Depending on the operational process and the amount of the dismantled parts.
